Hair Thickening Fibers

Keratin Hair Fibers For Areas of Thinning & Low Density

SIMPLY SHAKE FIBERS INTO HAIR FOR INSTANT THICKER FULLER-LOOKING HAIR

Hair Thickening Fibers are Keratin Proteins similar to natural hair. **Hair Thickening Fibers** blend with natural hair that may add density and help create **thicker, fuller-looking hair**.

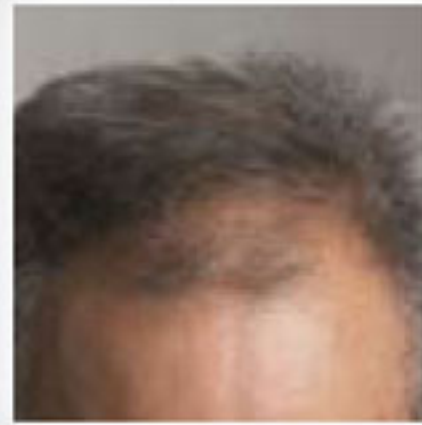

- Creates Instant Thicker Fuller-Looking Hair
- Made from Keratin Protein
- Covers-Up Fine and Thinning Areas of Hair
- Easy Application
- Perfect for Cover-Up Between Color Treatments
- For Daily Use

Directions: HAIR MUST BE COMPLETELY DRY. Brush or comb hair, shake Hair **Thickening Fibers** applying liberally into thinning and low-density areas and gently style hair into place with fingers or plastic comb. Use Brush Applicator filled with **Hair Thickening Fibers** to apply around hairline and hard to reach areas. Spray **Bosley Professional Strength Non-Aerosol Hairspray & FiberSet Spray** which may increase the bond between natural hair and **Hair Thickening Fibers** for extra durable, longer-lasting style. Shampoo to remove.
